The County of San Bernardino is creating Fundamental Plans for your community as part of the Countywide Plan and Community Plan Update efforts. The Survey asks for information about your community. The information will be used to create a Community Profile, document Community information and create a list of Action Items for the Community to make changes.

This survey will remain open until March 30th, 2018.

We want to thank you in advance for taking this survey. If you are interested in learning more about the Countywide Plan or Community Plan go to: <http://www.countywideplan.com>.

SWOT ANALYSIS

The next questions are a SWOT (strengths, weaknesses, opportunities, and threats) exercise where community members provide information about the community regarding the categories listed above. When considering what is a strength, weakness, opportunity, or threat, it is helpful to consider the following guidelines:

- Strengths and weaknesses are considered to be internal to the community, or things the community has control over.
- Opportunities and threats are considered to be external to the community, or things that affect the community, but that they have little or no control over.
- Many ideas can fall into multiple categories (for example, an existing park may be a strength, but maintenance of the park may be a weakness; a new park may be an opportunity). You may put topics in more than one category.

3. What do you consider to be the strengths of your community?

4. What do you consider to be the weaknesses of your community?

5. What do you consider to be the opportunities for the community?

6. What do you consider to be the threats facing the community?

VALUES AND ASPIRATIONS

In this section, we are asking you to provide information on what you value about the community currently and what aspirations you have for the community in the future.

Values express what really matters in your community. For example, dark skies, close-knit community, or local history.

Aspirations are a future state you would like to see in your community that supports the community's values. For example, a park, more community events, remain rural, improve the local economy, preserve the natural environment, etc.

7. What do you value about your community?

8. What aspirations do you have for the future of your community?

COMMUNITY FOCUS

This section relates to identifying focus statements for the community. We ask you to provide input on the direction of the community, including changes you would like to see and aspects you want to remain the same.

When thinking about Focus ideas, think about the overall changes for the community to make.

9. What are some overall focus ideas you would like to see achieved within the community? Identify up to five ideas?

(For example, improve public safety or maintain a clean community)

COMMUNITY PROFILE

The Community Profile will include an overview of the history of the Community's location and geography, existing land use, community amenities, quality of life concerns, services, and community organizations and events. This is information about things you already have in your community.

We need your help! Please provide information below so that we can better represent your community.

10. Historical Information

11. Community Amenities (For example, parks, trails, schools, etc.)

12. Community Organizations

13. Community Events
