A HISTORY OF CONNECTING WITH THE COMMUNITY

YOUR INPUT MATTERS!
A project of this magnitude requires coordination and input from the people that will be affected by it most. No one knows the county better than you! As community experts, your local insights, observations, and ideas are valuable to us as we continue work on Countywide Plan tasks.

Over the past three years, the County has reached out to thousands of residents in over 50 communities to develop a new system of Community Plans / Action Guides that identify values, aspirations, ideas for action, and priorities unique to each community area.

The County is now engaging stakeholders across all of San Bernardino County through nine regional meetings to share progress on the Countywide Plan since the 2017 Regional Open Houses, provide an overview of draft changes in County policy, and show more ways the County is improving public access to maps and information.
