Focus Areas

**Employment Focus Area**
An area where the County seeks to encourage and facilitate public improvements and private investment that lead to one or more of the following: increased employment, economic growth, and social equity. Employment focus areas are typically located in employment centers or in areas lacking an employment focus or where needed to stimulate employment growth.

**Commercial Focus Area**
An area where the County seeks to encourage and facilitate public improvements and private investment that lead to one or more of the following: increased business activity, economic growth, and social equity. Commercial focus areas are typically located in commercial centers or in areas lacking a commercial focus or where needed to stimulate business activity.

**Commuter Focus Area**
An area where the County seeks to encourage and facilitate public improvements and private investment that lead to one or more of the following: increased transportation connectivity, economic growth, and social equity. Commuter focus areas are typically located along major transportation corridors or in areas lacking a commuter focus or where needed to stimulate transportation connectivity.

**Industrial Redevelopment Focus Area**
An area where the County seeks to encourage and facilitate public improvements and private investment that lead to one or more of the following: increased economic growth, social equity, and environmental sustainability. Industrial redevelopment focus areas are typically located in areas with existing industrial or commercial development that is no longer viable or where needed to stimulate economic growth.
