

Meeting 3 Workshop Summary

Overview

The third of three workshops for the Muscoy Community Plan was held at the PAL Center on July 19th, 2016 from 6:30 to 8:30 P.M. During the third workshop, community members were asked to review and prioritize the draft goal and objective statements created by the project team from feedback received during the Meeting 2 exercises. Attendees were provided with materials from the past two meetings for reference, including a summary of all goal and objective comments from Meeting 2 as well as the SWOT analysis from Meeting 1. Maps of the existing land use and proposed land use changes were also provided for meeting attendees to review and comment.

After the introductory presentation, meeting attendees participated in table discussions regarding whether the goal and objective statements were accurate and should be incorporated into the community plan. After table discussions, community members were given dollar bills and coins and asked to allocate them to prioritize their top objectives. Each dollar bill represented additional funding to be given and coins represented volunteer hours willing to help to achieve the objectives. Dollars and coins were then tallied at the end of the exercise and the meeting attendees could see what objectives they would like to allocate additional funds to, should they become available, and what objectives they would be willing to volunteer their time to complete.
